WHAT TO KNOW BEFORE HITTING

THE ROAD

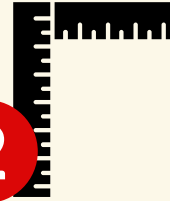

1

Do an RV walkthrough to make sure everything is in top shape. From tires to headlights and even fluid levels.

Make sure your also aware of what you RV is capable of.

Ex: the height clearance of your RV

2

3

Make sure to obey all traffic rules and regulations.

Using a RV App to get around and avoid tight spaces is a great time saver and keeps the worry at bay.

4

5

When using such apps, you can also plan out your campground stops and bathroom breaks.

Don't Forget The Essentials!

Packing a sufficient amount of clothes is a no-brainer when traveling, but with RV travel, there is so much more that you can bring along. Bring along foods that the family loves, pots and pans to fix the perfect meal, and, of course, the board games!
